Last Days of Life GP

The team caring for the person have discussed and agreed that their condition is deteriorating, and death is likely within hours or a small number of days

Last days of life template initiated No previous entry

It is considered best practice for a GP to see the patient prior to completing this template

Face to face consultation completed since the patient's deterioration Text 15-Mar-2019

Do not attempt CPR (DNACPR) form in place and is up to date 15-Mar-2019

Blue booklet anticipatory medications prescribed? 15-Mar-2019

Blue booklet medications have been reviewed in last two weeks

Imminent expected death Suitable for Nurse Verification Text 04-Jul-2019

www.cheshire-epaiqe.nhs.uk

If patient IS for CPR - Last Days of Life Template not appropriate

Supportive information:

1. Look for and treat reversible causes of symptoms if it would benefit the patient at this time
2. If uncertainty exists, or expertise is required, obtain specialist opinion from consultant team experienced in the person's condition
3. If complex and/or uncontrolled symptoms, obtain advice from the Specialist Palliative Care Team
4. Check for an Advance Care Plan or Advance Decision to Refuse Treatment, and use it to guide care appropriately
5. Check for a Lasting Power of Attorney (LPA) for health and welfare who has the right to make decisions relating to life-sustaining treatment
Click the link below for further guidance on LPA's

[5 Priorities of Care](#)

Wording changed on GP template to reflect **Imminent Expected Death suitable for nurse verification**

NB: the aim is for this code to replace the need for a Nurse Verification Authorisation form for District Nurses only- care homes may still require the form to be completed

EMIS Web Health Care System - East Cheshire Hospice PA Flow Z - 2/817
